# MEASUREMENTS FOR CUSTOM GLOVES

Measure **TIGHTLY** around the knuckles of each hand (as shown).  
Using the **LARGEST** measurement of the two, use the size chart to determine the glove size.

**NOTE:** Take the measurement of **BOTH** hands, and use the **LARGEST** measurement of the two. Gloves only come in **ONE** size for **BOTH** gloves, so it is better to use the largest hand size to determine the glove size.
